## **DETAILED ACTION**

### ***Reissue Applications***

The reissue declaration filed with this application is defective because it fails to specifically identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The alleged error fails to indicate the relationship of the applications (i.e., continuation, divisional, or continuation-in-part).

Claims 1-19 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178. These items appear to have been omitted upon filing of the application; although, they were listed in the application transmittal sheet.

### ***Priority***

Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification or in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)). The specific reference to any prior nonprovisional application must include the relationship (i.e., continuation, divisional, or

Art Unit: 3739

continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number.

It is also noted that U.S. Patent No. 5,553,611 was a continuation of application Serial No. 08/178,128; however, the priority claim is silent as to this application. In addition, the relationship that this application is a REISSUE of 08/387,832 filed on 05/26/1995, now U.S. PATENT No. 6,240,307, which is a 371 of PCT/US93/09015 filed on 09/23/1993 should be included in the specification.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lee S. Cohen whose telephone number is 571-272-4763. The examiner can normally be reached on Monday-Friday, 7:00-3:30.
